TECHNICAL PRODUCT DATASHEET

SAFETY GLASSES

UPDATED: 03/03/2023

Ledro Plus™

LEDRO PLUS Safety Glasses

With its ultimate lightweight and durable design, the Ledro™ boasts a featherweight 20g design, one of the lightest available on the market. This design offers all-day comfort without compromising on durability. The wrap-around lens design provides superior peripheral vision, and ensures that your eyes are fully protected from any potential hazards from all angles. The thin and flexible arm design contours to different head sizes, ensuring a comfortable fit for all users. These spectacles are ideal for use with ear defenders.

Ledro Plus offers additional Anti-Fog coating on the lens.

FURTHER INFORMATION

STORAGE / TRANSPORT: This product should be stored at a temperature 0-35C and 30-70% RH and kept away from solvents, or solvent vapours or any corrosive materials, as these may seriously reduce the impact protection provided by the spectacle. During transportation, ensure the product is well packaged to prevent damage.

PRECAUTIONS BEFORE USE: It is important that the eyewear selected is suitable for the protection required and the wear environment. If in doubt, further information should be sought from the manufacturer. The enclosed product information sheet should be read before use.

RECOMMENDATION / CLEANING: This product can be cleaned with soap and warm water or, if required, disinfected with a UV lamp or cleaned with a common domestic disinfectant. The lenses are coated to provide a certain level of scratch resistance,

however, they are not scratch proof and it is recommended that wiping of the lens is to be kept to a minimum and only done so with a soft non-abrasive cloth.

SERVICE LIFE:

The actual wear life is dependent upon the type of eyewear and the environmental conditions which can affect the wear, contamination and degradation of the product.
