

IMPACTO® KNEE PROTECTION

GEL PRO Comfort Knee Pads

- Gel filled padding provides superior comfort and knee support
- Gel pad reduces pressure directly on the patella bone
- Articulating feet grips the surface providing excellent stability
- Elevated face improves stability and traction, absorbs impact and helps support the knee
- Co-polymer thermoplastic rubber prevents marring and scratching delicate surfaces
- Maximum protection from cumulative trauma when working on your knees for long periods
- Strapping system positioned above and below the knee eliminates discomfort behind the knee
- > Made with 100% PVC-Free materials
- > Variations:

865-00 - GEL Kneepad

864-00 - Short style GEL Kneepad

Model **867-00**

Co-polymer rubber cover prevents marring and scratching, Sewn cap helps keep debris out

Elevated Face improves stability & traction, absorbs impact, helps support the knee while acting like a suction cap to prevent from rocking

Articulating Feet absorb pressure around the perimeter of the knee while gripping the surface ensuring stability

Extended Heel supports the shin & helps distribute body weight and reduce stress on the ankles and distributing the body weight evenly to prevent back discomfort

Heavy duty binding assures long lasting wear Padded/elastic top strap sits above and below the patella while webbing strap wraps around the back with secure plastic fastening

Soft fabric inner lining wicks away moisture

and provides

comfortable wear

Injected molded polyurethane and GEL directly into an ergonomically shaped pad to provide comfortable knee cushioning

Padded/Elastic estrap with plastic quick clip button closure

Ballistic Nylon outer top cover is highly resistant for most work environments

100% PVC-FREE
