

**USE & CARE:**

Always inspect your gloves before use. Cuts, tears and punctures are of principal concern. Discolouration or stiffness may indicate non-uniformities in the rubber, or may be a result of chemical attack from previous use. Any damaged gloves should be discarded and replaced prior to use.

Refer to the Chemical Resistance Guide and Physical Performance Chart (above) and select a glove with the highest rating for the chemicals and physical conditions. Always refer to the chemical label and Material Safety Data Sheet (MSDS) before use, as this may recommend a specific glove type.

The information stated in this guide is advisory only. The purchaser must determine the suitability of the glove for use with a specific chemical prior to use.

For further information regarding chemical protection offered by this product, please contact the manufacturer.

**STORAGE:**

Keep in a cool, dry place (min 18°C) away from direct sunlight and heat.

**DISPOSAL:**

Follow EEC and UK Directives for correct disposal.
