## hantex® PXF+

### 13gg Lightweight Cut Level F Glove with PU Palm

The Hantex PXF+ is a high performance work glove designed for maximum protection and durability. It features a lightweight 13gg high performance polyethylene (HPPE) shell, which provides excellent cut and abrasion resistance. The steel reinforcement increases the gloves overall strength and durability, and the glove features a comfortable liner to ensure a snug fit. The PU palm coating offers the user a glove with exceptional grip in dry conditions. With the highest cut resistance level of F, the PXF+ offers very high protection against cuts and slashes. It is ideal for use in environments where hand protection is critical, such as construction, manufacturing, assembly, and other industries.

Overall, the Hantex PXF+ is a reliable and durable choice for workers who need maximum protection against cuts, abrasions, and other workplace hazards.

## CERTIFICATION LEGENDS

EN388:2016

EN388:2016  
Blade Cut TDM  
EN ISO 13997 \*

\* For dulling during cut resistance test (6.2), the coupe test results are only indicative while the TDM cut resistance test (6.3) is the reference performance result.

NEWTON LEVEL

≥ 30	F
≥ 22	E
≥ 15	D
≥ 10	C
≥ 5	B
> 2	A

EN407:2020

EN511:2006

\* For details regarding maximum permissible user exposure, see separate sheet.

<sup>1</sup> Testing carried out on the palm material. Except in cases where the glove is equal to or over 400mm - where the cuff is tested also tested. <sup>2</sup> 'X' denotes Not Tested. <sup>3</sup> Where applicable, EN388:2016 scores take precedent and are ongoing. There is no correlation between coupe test levels and ISO 13997 / TDM cut test levels. Where both EN388:2016 and EN388:2003 scores are shown, the latter is shown for informational purposes only.

## FURTHER INFORMATION

**STORAGE / TRANSPORT:** Keep away from direct sunlight; store in a cool dry place. Keep away from ozone sources or naked flame. Store the gloves in their original packaging. During transportation, ensure the product is well packaged and protected in order to prevent any damage.

**PRECAUTIONS BEFORE USE:** 1. Never use these gloves with chemicals. 2. Gloves should not be used when there is a risk of entanglement with moving machine parts. 3. Before usage and periodically during usage, inspect the gloves for any defects or imperfections. Avoid wearing damaged, dirty or worn out gloves. 4. The gloves should not come in contact with a naked flame or fire. 5. Do not subject to high speed or serrated blades. 6. Always read enclosed user instructions before using these gloves. 7. Whilst these gloves are highly cut resistant, they are not cut proof. 8. The information provided is for products in a new condition and does not reflect the actual duration of protection in the workplace. 9. Service life cannot be specified and depends on the application and the responsibility of the user to ascertain suitability of the glove for its intended use.

**CONSTITUENTS / ALLERGIES:** Some gloves may contain ingredients which are known to be a possible cause of allergies in sensitive persons who may develop irritant and/or allergic contact reactions. If an allergic reaction should occur seek medical advice immediately. This model does not contain any substances at levels that are known to, or suspected to, adversely affect user hygiene or health.
