

# Proper Arm & Body PPE Care

By regularly washing your HexArmor® Arm & Body PPE, they can last up to 300% longer, and keep you and your crew safer. When working a job, you can easily wash your Arm & Body PPE on site:

## WASHING INSTRUCTIONS:

- **Option 1: Machine Wash**

Wash on a regular cycle using cool water. We recommend that you turn the item inside out to minimize scratching the tub of the washer. Do not bleach.

- **Option 2: Hand Wash**

Hand wash using mild semi-diluted cleaner and scrub until clean. Rinse thoroughly.

## DRYING INSTRUCTIONS:

- Tumble dry inside out on low setting or hang to dry (indoors). Do not iron.
- Store in clean, dry conditions, away from direct sunlight or extreme temperatures

\*We recommend washing HexArmor® Arm & Body PPE in water that is 30° Celsius or less. However, they may be washed in water up to 140° Celsius without any significant decrease in longevity or performance of the product. As always, inspect your PPE on a regular basis.
