

KIMTECH™

Be Your Best with Kimtech™ Lab Gloves

Working hand in hand to protect
the Scientist and the Science.

 Kimberly-Clark
PROFESSIONAL™

Why KIMTECH™?

Kimberly-Clark Professional™ partners with you to create exceptional workplaces, making them **healthier, safer** and **more productive**. When you work in challenging environments with no margin for error, count on Kimtech™ products to **protect** your critical processes and the people who perform them. We **understand** the risks and costs associated with contamination, Kimtech™ products are designed for **precision** tasks and exacting performance. We partner with you to deliver **seamless, worry-free** performance that minimise risk and maximise performance.

Protect the Scientist

Laboratory Safety is your #1 Priority. Kimtech™ gloves are specifically designed to protect Scientists from Chemical Splash and Micro-Organism Hazards.

- › EN ISO 374-1 Chemical splash protection certification
- › EN 374-4: 2003 Resistance to degradation by chemicals
- › EN ISO 374-5:2016 Micro Organism and Virus protection, the highest level of micro-organism protection possible for laboratory gloves
- › Non detectable level of chemical accelerators to mitigate risk of skin irritation

Protect the Science

Protection of procedures and assays from contamination is vital. Contamination costs time, money and credibility.

- › Manufactured to reduce levels of residuals, outperforming competitor laboratory gloves on cleanliness
- › Certificates of Analysis for each production lot demonstrates low residue levels¹
- › Non detectable levels of silicone and amide

Assured Compliance

Kimberly-Clark Professional™ makes it easy to demonstrate compliance with Laboratory gloves.

- › PPE Category III Certified for protecting from Chemical Splash and Micro-Organism Hazards
- › Publish Certificates of Analysis (CoA) with every production lot to provide you with assurance of barrier quality and cleanliness of the gloves¹
- › Our website www.kimtech.eu is a rich source of on-line documents, including Technical Data Sheets, Declaration of Conformity and Certificates of Analysis

¹for Kimtech™ Purple Nitrile / Purple Nitrile™ Xtra™ / Sterling™ Nitrile / Sterling™ Nitrile-Xtra™ Gloves only

Kimtech™ Purple Nitrile™ Gloves

- › Industry-leading gloves offering unrivalled protection, cleanliness and quality.
- › Nitrile construction results in products that are stronger and leaner than latex gloves, and feature better protection against a wider range of chemicals, including cytotoxic drugs.
- › Gloves are anti-static tested to protect the wearer and equipment, and ambidextrous.
- › Textured fingertips enhance grip and tactile sensitivity for safer and more efficient processes.
- › Beaded cuffs add strength to the gloves, reducing the risk of tearing and increasing their durability, while also reducing roll down for easier donning and doffing.
- › Contain no natural rubber latex, silicone or powder, reducing the risks of skin irritation for the wearer.
- › Available in two lengths.

Kimtech™ Purple Nitrile™ gloves deliver market-leading protection suitable for challenging life sciences and pharmaceutical manufacturing environments.

The high quality nitrile material delivers seamless protection whenever and wherever it is needed. The synthetic nitrile polymer material is designed for fit and reliability, with textured fingertips for improved grip and excellent water tightness (AQL 0.65) that results in a low risk of pinholes. The gloves are ambidextrous and incorporate a beaded cuff for added strength and ease of donning, so the wearer can simply grab and go without any fear of ripping the material. Our nitrile safety gloves are also anti-static tested to ensure no disruption to samples or equipment and are latex, silicone and powder-free.

Purple Nitrile™ gloves keep hands comfortable and protected while ensuring that research applications can be carried out contamination-free. The gloves are designated as PPE Cat III according to (EU) Regulation 2016/425, and are ideal for use in higher-risk applications as well as being food contact approved.

Assured Compliance: PPE Cat III according to Regulation (EU) 2016/425, EN ISO 374-1:2016 Type B (JKT) Chemical Splash protection, EN 374-4:2003 Resistance to degradation by chemicals, EN ISO 374-5:2016 Micro Organism and Virus protection, Food contact approved

PPE CATEGORY III

Kimtech™ Sterling™ Nitrile Gloves

- › Manufactured using proprietary Sterling™ technology that combines security and comfort. The efficient, environmentally-friendly construction minimises waste without compromising safety.
- › Nitrile construction results in products that are stronger and leaner than latex gloves, and feature certified protection against a wide range of contaminants while also being food contact approved.
- › Gloves are anti-static tested to protect the wearer and equipment, ambidextrous and grey in colour.
- › Textured fingertips enhance grip and tactile sensitivity for safer and more efficient processes.
- › Beaded cuffs add strength to the gloves, reducing the risk of tearing and increasing their durability, while also reducing roll down for easier donning and doffing.
- › Contain no natural rubber latex, silicone or powder, reducing the risks of skin irritation for the wearer.
- › Available in two lengths.

Kimtech™ Sterling™ Nitrile Ambidextrous Gloves ensure excellent contamination control with innovative, skin-friendly nitrile suitable for a variety of applications. The gloves are powder and latex free, featuring beaded cuffs and textured fingertips.

Assured Compliance: PPE Cat III according to Regulation (EU) 2016/425, EN ISO 374-1:2016 Type C (K) Chemical Splash protection, EN 374-4:2003 Resistance to degradation by chemicals, EN ISO 374-5:2016 Micro Organism and Virus protection, Food contact approved

Kimtech™ Green Nitrile Gloves

- › Textured finish enhances grip and tactile sensitivity.
- › Beaded cuffs reducing the risk of tearing and increasing durability.

Kimtech™ Green Nitrile Ambidextrous Gloves offer superb protection with an environmentally-friendly glove thickness of just 0.06 mm.

The comfortable design is powder- and latex-free and guards against a number of common contaminants.

Kimtech™ A7 P+ Laboratory Coat

- ▶ High quality disposable laboratory coats with triple stitched seams and breathable, multi-layered material.
- ▶ Enhanced all-round protective features are included, such as high mandarin collars, thumb-loops and extra-length arms to fit lab gloves over coats.
- ▶ The coats are individually packed making them suitable for ISO 7 (Grade C) areas.

With a cloth-like feel and a reduced risk of heat stress, Kimtech™ A7 P+ lab coats ensure contamination control during extensive periods of use. Made from non-woven SMS fabric with triple stitched seams, they are silicone and latex free.

7558	200 x 15	2	White	20 x 20.5 cm	3,000

WypAll® L Wipers

This range of wipers excels when a single-use wiper for mopping up spills, cleaning hands and wiping surfaces is needed.

The unique AIRFLEX™ Fabric structure, with large air pockets, absorbs more, is stronger and thicker than a conventional tissue wiper structure and requires fewer sheets for each job. Ideal for cleaning large surface spills, the WypAll® L Wiper range is both task and cost efficient.

Product Description	Code	Ply	Case Count	Sheet size L x W in cm	Dispenser Code
WypAll® L20 EXTRA PLUS Wipers - Large Roll Blue	7301	2	1x500	38 x 33	6146, 6154, 6155

WypAll® L30 Ultra + Wipers - Large Roll Blue	7426	3	1x750	38 x 33	6146, 6154, 6155
WypAll® L40 Folded Wipers	7471	1	18x56	30.4 x 31.7	7969

WypAll® X Cloths

The reusable WypAll® X Cloths are absorbent and solvent resistant and strong enough to tackle tough tasks, whilst also designed to be cost and time efficient. Using the patented HYDROKNIT™ Material, WypAll® X Cloths keep their shape and can be used again and again. In addition, the unique PowerPockets technology helps trap dirt and grime quicker and more effectively, leaving surfaces cleaner and reducing waste.

Product Description	Code	Ply	Case Count	Sheet size L x W in cm	Dispenser Code
