

CLI-420

Automatic Welding Shield

Product Datasheet

OUR REF: CLI-420

PRODUCT DESCRIPTION

A premium automatic welding shield suitable for most types of welding including MIG, TIG and plasma cutting and welding (not suitable for laser or gas welding). The helmet harness is fully adjustable with foam padding to the headband and easy one hand wheel adjustment.

SPARES AVAILABLE:

Welding Filter
 Inner filter cover
 Outer Protective cover

LENS AVAILABLE: AUTO

AVAILABLE SIZES: ONE SIZE

PACKAGING: Individual Carton

NOTE: Eye protection is only effective if correctly selected, fitted and worn for the complete period of exposure to hazards - Read ALL instructions and warnings carefully before use and consult a professional.

MEETS:

EN 175-DIN EN 379:2009-12

PERSONAL EYE PROTECTION

Technical Details

Complies with the requirements of the European Standard
DIN EN 379:2009-12, Directive 89/686.CEE

- **Optical Class:** - 1
- **Diffusion of Light Class:** - 1
- **Variations in Luminous Transmittance Class:** - 1
- **Angle Dependence of Luminous Transmittance:** - 2

EC type examination(s) carried out by: ECS European Certification Service
 Hüttfeldstraße 50, 73430 Aalen, Germany (Notified Body: 1883)

Instructions for use:

- **Detailed instructions are included with this product and these should be read fully and understood before use. If the optical unit fails, discontinue use IMMEDIATELY as serious irreversible injury may occur.**
- Inspect the welding shield and verify correct operation carefully before and regularly during use and **discard or replace damaged parts** if damaged in any way.
- There are no user replaceable parts available for this model.

Additional Information:

- **Cleaning:** Clean the automatic filter regularly with clean dry soft non abrasive cloth.
- **Storage:** When not in use this product should be stored in a clean dry poly bag in a cool place out of direct sunlight and away from solvents, solvent vapours or corrosive materials.
- **Damage:** This product should be carefully inspected before use and discarded if damaged in anyway whatsoever.
- **Material Declaration:** No parts which are in contact with the wearer are made from materials known to cause skin irritation.
- **Chemicals:** Certain chemicals may have a detrimental effect on contact with this product. If in doubt please check with your supplier.
- **Disinfection:** The parts of this product in contact with the skin should be disinfected periodically (at least every 3 months) with a suitable disinfectant.
- **WARNING:** Do not allow this product to come into contact with hot surfaces. Safe operating temperature -5°C to 55°C.
