CLEANING & MAINTENANCE

Wipe with damp cloth soaked in mild detergent solution, being careful not to get liquid in the filter
Do not immerse the unit in water. Do not use abrasive substances or solvents
Cleaning the filter does not extend its life
Store the unit in an airtight container, out of direct sunlight away from chemicals, abrasive substances and in a dry atmosphere

INSTRUCTIONS FOR USE

Line up all fins on with the corresponding holes in the power unit and push in. Rotate anti-clockwise until all fins click to the closed position
The airflow of the power unit should be checked prior to use
Fit hood on head and fasten harness to ensure correct fit
Ensure the hood is pulled down around the head and under the chin to allow the elasticated seal to fit properly
The hose fits onto the power unit using a bayonet fitting
To re-charge battery, insert charger into the jack on the rear of the unit. Leave to charge for 16 hours. Remove charger after this time
Care must be taken to ensure that the correct respiratory protection device is selected for the work to be carried out. If in doubt seek professional advice
