

MACHINE KNITTED GLOVES USER INFORMATION

GLOVE DESCRIPTION

The gloves are machine knitted liners made from Dyneema[®] yarn blended with other high performance synthetic yarns to provide a tough cut resistance barrier that protects the hand more effectively than most non chain mesh gloves, while offering vastly superior dexterity and comfort. The glove provides good protection against abrasion and tear in dry handling conditions.

GLOVE SERIES

KUTLASS PLUS Machine Knit Gloves.

MARKING

UC, STYLE, SIZE AND **CE**

GLOVE SIZES AVAILABLE	
Hand Size defined in EN 420	Glove Sizes

11	X-Large

(INTERMEDIATE)
Safety Category

Mechanical test data in accordance with EN 388:2003

Abrasion	Resistance	Level 4
Cut	Resistance	Level 5
Tear	Resistance	Level 4
Puncture	Resistance	Level 4

Caution! Do not use near moving machinery due to entanglement hazard

The results are taken from the palm area of the gloves
Tested in accordance with EN 388, EC type examination carried out
by S.G.S United Kingdom Ltd. Weston-super-Mare,
BS22 6WA, United Kingdom

CLEANING / MAINTENANCE

Both new and used gloves should be thoroughly inspected before being worn to ensure no damage is present. Gloves should not be left in contaminated condition if reuse is intended in which case gloves should be cleaned as far as possible.

STORAGE

Gloves should be ideally stored in dry conditions in original package and out of direct UV light.

OBSOLESCENCE

When stored as recommended will not suffer change in mechanical properties for up to three years from the date of manufacture. Service life cannot be specified and depends on the application and responsibility of user to ascertain suitability of the glove for its intended use.

GENERAL

None of the materials or processes used in the manufacture of these products is known to be harmful to the wearer.

PLEASE NOTE

The results of the physical tests should help in glove selection, however it must be understood that actual conditions of use cannot be simulated and it is the responsibility of the end user and not the manufacturer to determine glove suitability for the intended use.
